

## Stair Nosing

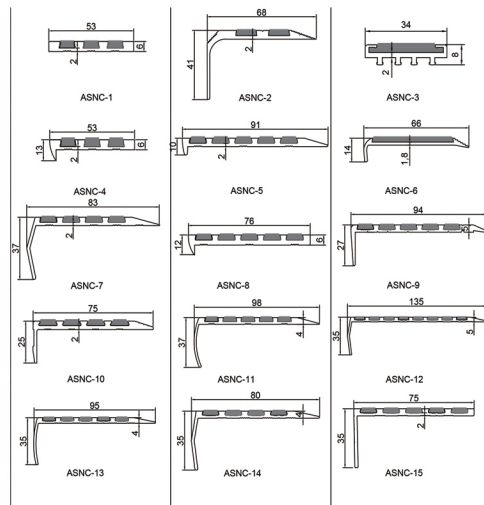

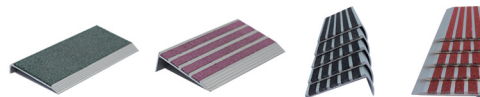

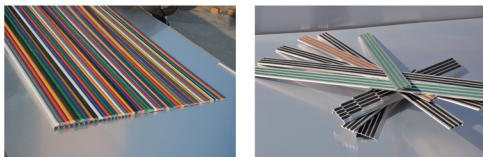

Stair Nosings are used to define the edge of steps by inserting a coloured, slip resistant insert which is tested to the Australian Standards and 'Light Reflectance Values'. The stair edgings reduce the risk of any trip hazard and prolong the life of the floor covering.

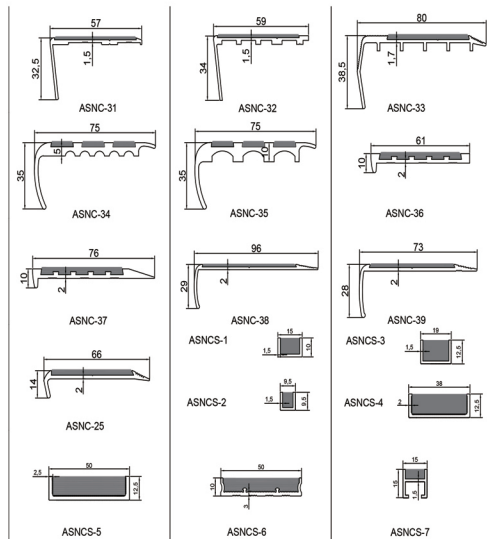

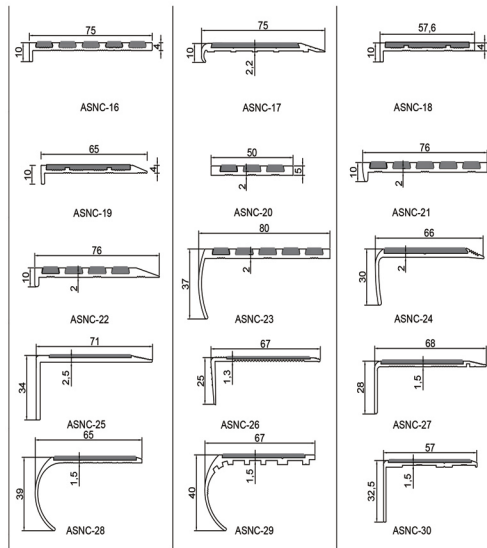

### Carborundum Insert Stair Nosing

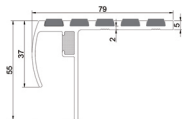

Avida carborundum insert aluminum stair nosing enjoys incomparable advantage in **anti-slip, dust-proof, fire-barrier, aging resistance, heat resistance, and recycling** use.

With **rounded, square, raked, fold-angle and strip-shaped nose**, Avida carborundum insert series stair nosing suits for multiple areas, such as schools, hospitals, banks, shopping malls, plazas, offices, etc. for **newly-built and existing stairs'** construction.

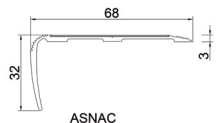

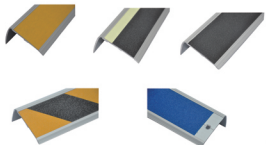

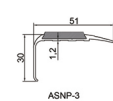

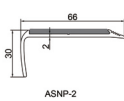

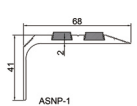

**LED Carborundum Insert Stair Nosing**

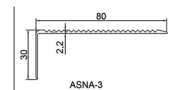

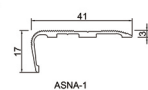

**Carborundum Tape Insert Stair Nosing**

**Rubber Insert Stair Nosing**

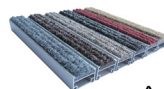

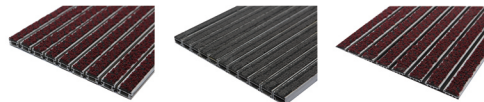

**Aluminum Stair Nosing**

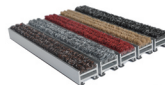

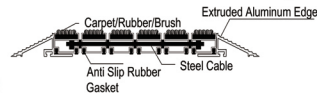

**Aluminum Entrance Mat**

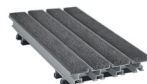

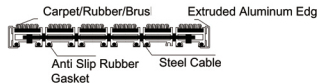

- Made of 6063-T5 aluminum alloy. (Standards:GB5237.3.2004).
- Bear capacity can reach 1000 kgs-2500 kgs and keeps the shape.
- Durable wipers are moistureproof, noiseproof, slip-resistant, heat-resistant, cold-resistant, anti-corrosive and anti-static.
- Flexible steel chains enable you to roll it up easily and is convenient for maintenance or lock design for easy assembling
